NEWS RELEASE - FOR IMMEDIATE RELEASE

October 31, 2023

Equity Residential Reports Third Quarter 2023 Results

Chicago, IL – October 31, 2023 - Equity Residential (NYSE: EQR) today reported results for the quarter and nine months ended September 30, 2023 and has posted a Q3 2023 Management Presentation to its website as referenced below.

Third Quarter 2023 Results
All per share results are reported as available to common shares/units on a diluted basis.

	Quarter Ended September 30,			
	2023	2022	$ Change	% Change
Earnings Per Share (EPS)	$ 0.45	$ 0.86	$ (0.41)	(47.7%)
Funds from Operations (FFO) per share	$ 0.96	$ 0.90	$ 0.06	6.7%
Normalized FFO (NFFO) per share	$ 0.96	$ 0.92	$ 0.04	4.3%

	Nine Months Ended September 30,			
	2023	2022	$ Change	% Change
Earnings Per Share (EPS)	$ 1.38	$ 1.63	$ (0.25)	(15.3%)
Funds from Operations (FFO) per share	$ 2.74	$ 2.56	$ 0.18	7.0%
Normalized FFO (NFFO) per share	$ 2.78	$ 2.58	$ 0.20	7.8%

Recent Highlights

- Same store revenue increased 4.1% for the third quarter of 2023 compared to the third quarter of 2022 and was negatively impacted by weaker than expected revenue performance in San Francisco and Seattle as well as the non-cash write-off of approximately $1.5 million in straight-line receivables due to the recent bankruptcy of Rite Aid. The Company revised its 2023 annual same store revenue growth guidance to 5.5% as further described in this release and in the Management Presentation referenced below.
- Bad debt before the application of governmental rental assistance has improved substantially for the nine months ended September 2023 as compared to the same period in 2022, albeit slightly less than our prior expectations due to the timing associated with current eviction proceedings. See page 13 for additional details.
- Same store expense growth for the third quarter of 2023 compared to the third quarter of 2022 was 3.1%. The Company also reaffirmed its full year 2023 same store expense growth at 4.25%.
- During the third quarter of 2023, the Company acquired two suburban Atlanta apartment properties, consisting of 634 apartment units, for an aggregate acquisition price of approximately $179.7 million and sold a 166-unit apartment property in Seattle for approximately $60.1 million. Subsequent to the end of the quarter, the Company sold three operating properties for a total of approximately $184.6 million.
- The Company recently published its tenth annual Environmental, Social and Governance (ESG) report highlighting Equity Residential's goals and accomplishments.

“Our East Coast portfolio performed very well in the quarter. Strong demand combined with low supply in Boston and New York and rapid absorption of supply in Washington, D.C. position these markets favorably going forward. While the East Coast outperformed our expectations, the San Francisco and Seattle markets underperformed due to lower recent job growth in our target affluent renter demographic and, together with the Rite Aid bankruptcy, led us to adjust guidance,” said Mark J. Parrell, Equity Residential’s President and CEO. “We are pleased with our progress in reducing our COVID era delinquency but the legal process is lengthy and uneven and we will likely end the year with modestly more delinquency

than our previous goal. As we think about 2024 operating performance, continued demand from our well-employed renter demographic and limited new supply in most of our markets should lead to another year of solid same store revenue growth."

Full Year 2023 Guidance

The Company has revised its guidance for its full year 2023 same store operating performance, EPS, FFO per share and Normalized FFO per share as listed below:

	Revised	Previous	Change at Midpoint
Same Store *(includes Residential and Non-Residential)*:			
Physical Occupancy	95.9%	96.0%	(0.1%)
Revenue change	5.5%	5.5% to 6.25%	(0.375%)
Expense change	4.25%	4.0% to 4.5%	0.00%
Net Operating Income (NOI) change	6.2%	6.3% to 7.0%	(0.45%)
EPS	$2.20 to $2.22	$1.95 to $2.01	$0.23
FFO per share	$3.74 to $3.76	$3.72 to $3.78	$0.00
Normalized FFO per share	$3.77 to $3.79	$3.77 to $3.83	($0.02)

The change in the full year 2023 EPS guidance range is due primarily to higher expected property sale gains, partially offset by lower expected Residential and Non-Residential same store NOI and higher expected depreciation expense.

The change in the full year 2023 Normalized FFO per share guidance range is due primarily to lower expected Residential and Non-Residential same store NOI.

The Company has a glossary of defined terms and related reconciliations of Non-GAAP financial measures on pages 29 through 34 of this release. Reconciliations and definitions of FFO and Normalized FFO are provided on pages 7, 31 and 32 of this release.

Results Per Share

The changes in EPS for the quarter and nine months ended September 30, 2023 compared to the same periods of 2022 are due primarily to lower property sale gains in the current periods, the various adjustment items listed on page 27 of this release and the items described below.

The per share changes in FFO for the quarter and nine months ended September 30, 2023 compared to the same periods of 2022 are due primarily to the various adjustment items listed on page 27 of this release and the items described below.

The per share changes in Normalized FFO are due primarily to:

	Positive/(Negative) Impact	
	Third Quarter 2023 vs. Third Quarter 2022	September YTD 2023 vs. September YTD 2022
Residential same store NOI	$ 0.06	$ 0.22
Non-Residential same store NOI (1)	(0.01)	—
Lease-Up NOI	—	0.02
2023 and 2022 transaction activity impact on NOI, net	—	(0.02)
Interest expense, net	—	0.03
Corporate overhead (2)	(0.01)	(0.02)
Other items (3)	—	(0.03)
Net	$ 0.04	$ 0.20

(1) During the third quarter of 2023, the Company recorded a non-cash write-off of approximately $1.5 million in straight-line receivables due to the recent bankruptcy of Rite Aid.
(2) Corporate overhead includes property management and general and administrative expenses.
(3) Primarily represents the negative impact from property damage associated with the California rain storms that occurred earlier this year.

Table of Contents

Same Store Results

The following table shows the total same store results for the periods presented.

	Third Quarter 2023 vs. Third Quarter 2022	Third Quarter 2023 vs. Second Quarter 2023	September YTD 2023 vs. September YTD 2022
Apartment Units	77,698	78,368	76,789
Physical Occupancy	96.0% vs. 96.4%	96.0% vs. 95.9%	95.9% vs. 96.5%
Revenues	4.1%	0.7%	6.2%
Expenses	3.1%	1.9%	5.3%
NOI	4.6%	0.1%	6.6%

On page 11 of this release, the Company has provided a breakout of Residential and Non-Residential same store results with definitions that can be found on page 33 of this release. Non-Residential operations account for approximately 3.6% of total revenues for the nine months ended September 30, 2023.

The following table reflects the detail of the change in Same Store Residential Revenues, which is presented on a GAAP basis showing Leasing Concessions on a straight-line basis.

	Third Quarter 2023 vs. Third Quarter 2022	Third Quarter 2023 vs. Second Quarter 2023	September YTD 2023 vs. September YTD 2022
	% Change	% Change	% Change
Same Store Residential Revenues-comparable period			
Lease rates	5.0%	1.3%	7.1%
Leasing Concessions	(0.4%)	(0.1%)	(0.1%)
Vacancy gain (loss)	(0.5%)	(0.2%)	(0.7%)
Bad Debt, Net [1]	(0.3%)	0.0%	(0.7%)
Other [2]	0.6%	0.0%	0.7%
Same Store Residential Revenues-current period	4.4%	1.0%	6.3%

(1) Change in rental income due to bad debt write-offs and reserves, net of amounts (including governmental rental assistance payments) collected on previously written-off or reserved accounts. Comparable period changes in quarterly Bad Debt, Net will be volatile throughout 2023 primarily due to the timing of the current legal processes and governmental rental assistance received in 2022. See page 13 for more detail.

(2) Includes ancillary income, utility recoveries, early lease termination income, miscellaneous income and other items.

See page 12 for detail and reconciliations of Same Store Residential Revenues on a GAAP basis to Same Store Residential Revenues with Leasing Concessions on a cash basis.

Residential Same Store Operating Statistics

The following table includes select operating metrics for Residential Same Store Properties (for 76,789 same store apartment units):

	October 2023 (1)	Q3 2023	Q2 2023
Physical Occupancy	96.0%	96.0%	95.9%
Percentage of Residents Renewing by quarter/month	59.0%	54.0%	57.0%
New Lease Change [2]	(3.1%)	0.5%	2.3%
Renewal Rate Achieved	5.0%	5.5%	5.9%
Blended Rate	1.6%	3.1%	4.3%

(1) October 2023 results are preliminary as of October 27th.

(2) Excluding the impact of San Francisco and Seattle, New Lease Change would have been (0.3%), 2.1% and 3.6% for October 2023, Q3 2023 and Q2 2023, respectively, which is in line with the Company's expectations and consistent with normal seasonal patterns.

Table of Contents

Investment Activity
The Company acquired two operating properties, both in suburban Atlanta, during the third quarter of 2023 - a recently completed 344-unit apartment property in Suwanee, which is currently in lease up, for approximately $98.0 million at a stabilized Acquisition Cap Rate of 5.4% and a 290-unit property in Decatur built in 2019, for approximately $81.7 million at an Acquisition Cap Rate of 5.1%. During the first nine months of 2023, the Company has acquired four operating properties, consisting of 1,183 apartment units, for an aggregate purchase price of approximately $366.3 million at a weighted average Acquisition Cap Rate of 5.5%.

Also during the third quarter of 2023, the Company sold a 166-unit property in Seattle for approximately $60.1 million at a Disposition Yield of 5.4%, generating an Unlevered IRR of 7.5%. During the first nine months of 2023, the Company sold eight properties, consisting of 413 apartment units, for an aggregate sale price of approximately $195.4 million at a weighted average Disposition Yield of 5.3%, generating an Unlevered IRR of 8.5%. Subsequent to the end of the quarter, the Company sold three properties located in our West Coast markets (San Francisco, Seattle and Los Angeles), consisting of 499 apartment units, for an aggregate sale price of approximately $184.6 million at a weighted average Disposition Yield of 5.8%.

Capital Markets Activity
In August 2023, the Company closed on secured loans totaling $550.0 million. The Company previously disclosed the rate lock on these loans in July 2023. After the effect of the Company's hedges, the economic rate on these ten-year loans is approximately 4.7%. The proceeds from these loans were used, along with funding from the Company's Commercial Paper Program, to paydown the $800.0 million secured debt pool that was due to mature in November 2023 and carried an interest rate of 4.21%. After this paydown, the Company has no significant debt maturities, other than commercial paper, which is supported by its revolving credit facility due 2027, until June 2025.

Fourth Quarter 2023 Guidance
The Company has established guidance ranges for the fourth quarter of 2023 EPS, FFO per share and Normalized FFO per share as listed below:

	Q4 2023 Guidance
EPS	$0.82 to $0.84
FFO per share	$1.00 to $1.02
Normalized FFO per share	$0.99 to $1.01

The difference between the third quarter of 2023 actual EPS of $0.45 and the fourth quarter of 2023 EPS guidance midpoint of $0.83 is due primarily to higher expected property sale gains and the items described below.

The difference between the third quarter of 2023 actual FFO of $0.96 per share and the fourth quarter of 2023 FFO guidance midpoint of $1.01 per share is due primarily to the items described below.

The difference between the third quarter of 2023 actual Normalized FFO of $0.96 per share and the fourth quarter of 2023 Normalized FFO guidance midpoint of $1.00 per share is due primarily to:

	Positive/(Negative) Impact Fourth Quarter 2023 vs. Third Quarter 2023
Residential same store NOI	$ 0.02
Non-Residential same store NOI	0.01
Corporate overhead	0.01
Net	$ 0.04

About Equity Residential
Equity Residential is committed to creating communities where people thrive. The Company, a member of the S&P 500, is focused on the acquisition, development and management of residential properties located in and around dynamic cities that attract affluent long-term renters. Equity Residential owns or has investments in 305 properties consisting of 80,683 apartment units, with an established presence in Boston, New York, Washington, D.C., Seattle, San Francisco and Southern California, and an expanding presence in Denver, Atlanta, Dallas/Ft. Worth and Austin. For more information on Equity Residential, please visit our website at www.equityapartments.com.

Forward-Looking Statements

In addition to historical information, this press release contains forward-looking statements and information within the meaning of the federal securities laws. These statements are based on current expectations, estimates, projections and assumptions made by management. While Equity Residential's management believes the assumptions underlying its forward-looking statements are reasonable, such information is inherently subject to uncertainties and may involve certain risks, including, without limitation, changes in general market conditions, including the rate of job growth and cost of labor and construction material, the level of new multifamily construction and development, government regulations and competition. These and other risks and uncertainties are described under the heading "Risk Factors" in our Annual Report on Form 10-K and subsequent periodic reports filed with the Securities and Exchange Commission (SEC) and available on our website, www.equityapartments.com. Many of these uncertainties and risks are difficult to predict and beyond management's control. Forward-looking statements are not guarantees of future performance, results or events. Equity Residential assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

A live web cast of the Company's conference call discussing these results will take place tomorrow, Wednesday, November 1, 2023 at 10:00 a.m. CT. In connection with the conference call, the Company is also providing a Management Presentation on its website. Please visit the Investor section of the Company's website at www.equityapartments.com for the webcast link.

(1) See Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms for additional detail.

(2) Concession usage is primarily concentrated in San Francisco and Seattle and is expected to continue through the remainder of 2023.

Same Store Net Operating Income By Quarter Including 76,789 Same Store Apartment Units

($ in thousands)

	Q3 2023	Q2 2023	Q1 2023	Q4 2022	Q3 2022
Same store revenues	$ 697,066	$ 692,267	$ 680,523	$ 674,851	$ 669,971
Same store expenses	221,035	217,113	226,459	210,495	214,192
Same store NOI *(includes Residential and Non-Residential)*	$ 476,031	$ 475,154	$ 454,064	$ 464,356	$ 455,779

Equity Residential

Same Store Resident/Tenant Accounts Receivable Balances
Including 76,789 Same Store Apartment Units

($ in thousands)

	Residential		Non-Residential	
Balance Sheet (Other assets):	September 30, 2023	June 30, 2023	September 30, 2023	June 30, 2023
Resident/tenant accounts receivable balances	$ 24,846	$ 26,626	$ 2,714	$ 2,389
Allowance for doubtful accounts	(19,574)	(22,335)	(1,703)	(1,383)
Net receivable balances	$ 5,272	$ 4,291	$ 1,011	$ 1,006
Straight-line receivable balances	$ 7,458 (1)	$ 6,012	$ 11,800 (2)	$ 13,546

(1) Total same store Residential Leasing Concessions granted in the third quarter of 2023 were approximately $5.1 million. The straight-line receivable balance of $7.5 million reflects Residential Leasing Concessions that the Company expects will be primarily recognized as a reduction of rental revenues in the remainder of 2023 and the first three quarters of 2024.

(2) During the third quarter of 2023, the Company recorded a non-cash write-off of approximately $1.5 million in straight-line receivables due to the recent bankruptcy of Rite Aid.

Utilities	103,709	100,418	3,291	3.3%	15.6%
Repairs and maintenance	91,709	81,926	9,783	11.9%	13.8%
Insurance	25,149	22,043	3,106	14.1%	3.8%
Leasing and advertising	7,652	7,874	(222)	(2.8%)	1.2%
Other on-site operating expenses	38,042	33,927	4,115	12.1%	5.7%
Total Same Store Operating Expenses (2) *(includes Residential and Non-Residential)*	$ 664,607	$ 631,281	$ 33,326	5.3%	100.0%

(1) The quarter-over-quarter and year-over-year changes were primarily driven by the following factors:

Real estate taxes – Increase due to modest escalation in rates and assessed values.

On-site payroll – Increase due primarily to fewer staffing vacancies compared to the same periods of 2022 and elevated employee benefit costs, partially offset by the impact of innovation initiatives.

Utilities – Quarter-over-quarter decrease primarily driven by lower commodity prices for gas and electric. Year-over-year increase primarily driven by higher commodity prices for gas earlier in the year and higher water, sewer and trash expense.

Repairs and maintenance – Quarter-over-quarter increase primarily driven by continued wage pressure, particularly due to higher minimum wage on contracted services. Year-over-year increase was also impacted by increased outsourcing due to higher internal staffing utilization to address issues from California rain storms that occurred earlier this year.

Insurance – Increase due to higher premiums on property insurance renewal due to challenging conditions in the insurance market.

Other on-site operating expenses – Increase primarily driven by higher property-related legal expenses.

(2) See Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms for additional details.

Normalized FFO Guidance and Assumptions

The guidance/projections provided below are based on current expectations and are forward-looking. All guidance is given on a Normalized FFO basis. Therefore, certain items excluded from Normalized FFO, such as debt extinguishment costs/prepayment penalties and the write-off of pursuit costs, are not included in the estimates provided on this page. See Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms for the definitions of non-GAAP financial measures and other terms as well as the reconciliations of EPS to FFO per share and Normalized FFO per share.

	Q4 2023	Revised Full Year 2023	Previous Full Year 2023
2023 Normalized FFO Guidance (per share diluted)			
Expected Normalized FFO Per Share	$0.99 to $1.01	$3.77 to $3.79	$3.77 to $3.83
2023 Same Store Assumptions (includes Residential and Non-Residential)			
Physical Occupancy		95.9%	96.0%
Revenue change		5.5%	5.5% to 6.25%
Expense change		4.25%	4.0% to 4.5%
NOI change (1)		6.2%	6.3% to 7.0%
2023 Transaction Assumptions			
Consolidated rental acquisitions		$366.3M	$300.0M
Consolidated rental dispositions		$380.0M	$300.0M
Transaction Accretion (Dilution)		–	–
2023 Debt Assumptions			
Weighted average debt outstanding		$7.45B to $7.5B	$7.35B to $7.55B
Interest expense, net (on a Normalized FFO basis)		$267.5M to $271.5M	$265.5M to $271.5M
Capitalized interest		$12.0M to $13.0M	$11.0M to $14.0M
2023 Capital Expenditures to Real Estate Assumptions for Same Store Properties (2)			
Capital Expenditures to Real Estate for Same Store Properties		$276.4M	$255.0M
Capital Expenditures to Real Estate per Same Store Apartment Unit		$3,600	$3,315
2023 Other Guidance Assumptions			
Property management expense		$118.0M to $119.0M	$116.5M to $119.5M
General and administrative expense		$60.0M to $61.0M	$59.5M to $63.5M
Debt offerings		$550.0M	$530.0M
Weighted average Common Shares and Units - Diluted		391.2M	391.3M

(1) Approximately 20 basis point change in NOI percentage = $0.01 per share change in EPS/FFO per share/Normalized FFO per share.

(2) During 2023, the Company expects to spend approximately $75.0 million for apartment unit Renovation Expenditures on approximately 2,500 same store apartment units at an average cost of approximately $30,000 per apartment unit renovated, which is included in the Capital Expenditures to Real Estate assumptions noted above.

Equity Residential

This Earnings Release and Supplemental Financial Information includes certain non-GAAP financial measures and other terms that management believes are helpful in understanding our business. The definitions and calculations of these non-GAAP financial measures and other terms may differ from the definitions and methodologies used by other real estate investment trusts ("REIT") and, accordingly, may not be comparable. These non-GAAP financial measures should not be considered as an alternative to net earnings or any other measurement of performance computed in accordance with accounting principles generally accepted in the United States ("GAAP") or as an alternative to cash flows from specific operating, investing or financing activities. Furthermore, these non-GAAP financial measures are not intended to be a measure of cash flow or liquidity.

Acquisition Capitalization Rate or Cap Rate – NOI that the Company anticipates receiving in the next 12 months (or the year two or three stabilized NOI for properties that are in lease-up at acquisition) less an estimate of property management costs/management fees allocated to the project (generally ranging from 2.0% to 4.0% of revenues depending on the size and income streams of the asset) and less an estimate for in-the-unit replacement capital expenditures (generally ranging from $100-$450 per apartment unit depending on the age and condition of the asset) divided by the gross purchase price of the asset. The weighted average Acquisition Cap Rate for acquired properties is weighted based on the projected NOI streams and the relative purchase price for each respective property.

Average Rental Rate – Total Residential rental revenues reflected on a straight-line basis in accordance with GAAP divided by the weighted average occupied apartment units for the reporting period presented.

Bad Debt, Net – Change in rental income due to bad debt write-offs and reserves, net of amounts collected on previously written-off or reserved accounts.

Blended Rate – The weighted average of New Lease Change and Renewal Rate Achieved.

Capital Expenditures to Real Estate:

Building Improvements – Includes roof replacement, paving, building mechanical equipment systems, exterior siding and painting, major landscaping, furniture, fixtures and equipment for amenities and common areas, vehicles and office and maintenance equipment.

Renovation Expenditures – Apartment unit renovation costs (primarily kitchens and baths) designed to reposition these units for higher rental levels in their respective markets.

Replacements – Includes appliances, mechanical equipment, fixtures and flooring (including hardwood and carpeting).

Debt Balances:

Commercial Paper Program – The Company may borrow up to a maximum of $1.0 billion under its Commercial Paper Program subject to market conditions. The notes bear interest at various floating rates.

Revolving Credit Facility – The Company's $2.5 billion unsecured revolving credit facility matures October 26, 2027. The interest rate on advances under the facility will generally be SOFR plus a spread (currently 0.725%), or based on bids received from the lending group, and an annual facility fee (currently 0.125%). Both the spread and the facility fee are dependent on the Company's senior unsecured credit rating. In addition, the Company limits its utilization of the facility in order to maintain liquidity to support its $1.0 billion Commercial Paper Program along with certain other obligations. The following table presents the availability on the Company's unsecured revolving credit facility:

	September 30, 2023
Unsecured revolving credit facility commitment	$ 2,500,000
Commercial paper balance outstanding	(500,005)
Unsecured revolving credit facility balance outstanding	—
Other restricted amounts	(3,415)
Unsecured revolving credit facility availability	$ 1,996,580

Debt Covenant Compliance – Our unsecured debt includes certain financial and operating covenants including, among other things, maintenance of certain financial ratios. These provisions are contained in the indentures applicable to each notes payable or the credit agreement for our line of credit. The Debt Covenant Compliance ratios that are provided show the Company's compliance with certain covenants governing our public unsecured debt. These covenants generally reflect our most restrictive financial covenants. The Company was in compliance with its unsecured debt covenants for all periods presented.

Equity Residential

Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms – Continued

(Amounts in thousands except per share and per apartment unit data)
(All per share data is diluted)

Development Yield – NOI that the Company anticipates receiving in the next 12 months following stabilization less an estimate of property management costs/management fees allocated to the project (generally ranging from 2.0% to 4.0% of revenues depending on the size and income streams of the asset) and less an estimate for in-the-unit replacement capital expenditures (generally ranging from $50-$150 per apartment unit depending on the type of asset) divided by the Total Budgeted Capital Cost of the asset. The weighted average Development Yield for development properties is weighted based on the projected NOI streams and the relative Total Budgeted Capital Cost for each respective property.

Disposition Yield – NOI that the Company anticipates giving up in the next 12 months less an estimate of property management costs/management fees allocated to the project (generally ranging from 2.0% to 4.0% of revenues depending on the size and income streams of the asset) and less an estimate for in-the-unit replacement capital expenditures (generally ranging from $150-$450 per apartment unit depending on the age and condition of the asset) divided by the gross sales price of the asset. The weighted average Disposition Yield for sold properties is weighted based on the projected NOI streams and the relative sales price for each respective property.

Earnings Per Share ("EPS") – Net income per share calculated in accordance with GAAP. Expected EPS is calculated on a basis consistent with actual EPS. Due to the uncertain timing and extent of property dispositions and the resulting gains/losses on sales, actual EPS could differ materially from expected EPS.

EBITDA for Real Estate and Normalized EBITDA for Real Estate:

Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate ("EBITDAre") – The National Association of Real Estate Investment Trusts ("Nareit") defines EBITDAre (September 2017 White Paper) as net income (computed in accordance with GAAP) before interest expense, income taxes, depreciation and amortization expense, and further adjusted for gains and losses from sales of depreciated operating properties, impairment write-downs of depreciated operating properties, impairment write-downs of investments in unconsolidated entities caused by a decrease in value of depreciated operating properties within the joint venture and adjustments to reflect the Company's share of EBITDAre of investments in unconsolidated entities.

The Company believes that EBITDAre is useful to investors, creditors and rating agencies as a supplemental measure of the Company's ability to incur and service debt because it is a recognized measure of performance by the real estate industry, and by excluding gains or losses related to sales or impairment of depreciated operating properties, EBITDAre can help compare the Company's credit strength between periods or as compared to different companies.

Normalized Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate ("Normalized EBITDAre") – Represents net income (computed in accordance with GAAP) before interest expense, income taxes, depreciation and amortization expense, and further adjusted for non-comparable items. Normalized EBITDAre, total debt to Normalized EBITDAre and net debt to Normalized EBITDAre are important metrics in evaluating the credit strength of the Company and its ability to service its debt obligations. The Company believes that Normalized EBITDAre, total debt to Normalized EBITDAre, and net debt to Normalized EBITDAre are useful to investors, creditors and rating agencies because they allow investors to compare the Company's credit strength to prior reporting periods and to other companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual credit quality.

Economic Gain (Loss) – Economic Gain (Loss) is calculated as the net gain (loss) on sales of real estate properties in accordance with GAAP, excluding accumulated depreciation. The Company generally considers Economic Gain (Loss) to be an appropriate supplemental measure to net gain (loss) on sales of real estate properties in accordance with GAAP because it is one indication of the gross value created by the Company's acquisition, development, renovation, management and ultimate sale of a property and because it helps investors to understand the relationship between the cash proceeds from a sale and the cash invested in the sold property. The following table presents a reconciliation of net gain (loss) on sales of real estate properties in accordance with GAAP to Economic Gain (Loss):

	Nine Months Ended September 30, 2023	Quarter Ended September 30, 2023
Net Gain (Loss) on Sales of Real Estate Properties	$ 127,034	$ 26,912
Accumulated Depreciation Gain	(55,757)	(19,271)
Economic Gain (Loss)	$ 71,277	$ 7,641

Forecasted Embedded Growth – The positive or negative contribution to growth implied by annualizing total lease income anticipated for the last month of the current year (without regard to vacancy) compared to anticipated actual full year lease income for the current year (without regard to vacancy) and excluding the impact of Leasing Concessions and other income. This metric is a helpful data point in that it captures the impact of leases in existence at the end of the current year and their impact on rental income for the following year.

Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms – Continued

(Amounts in thousands except per share and per apartment unit data)
(All per share data is diluted)

FFO and Normalized FFO:

Funds From Operations ("FFO") – Nareit defines FFO (December 2018 White Paper) as net income (computed in accordance with GAAP), excluding gains or losses from sales and impairment write-downs of depreciable real estate and land when connected to the main business of a REIT, impairment write-downs of investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity and depreciation and amortization related to real estate. Adjustments for partially owned consolidated and unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. Expected FFO per share is calculated on a basis consistent with actual FFO per share and is considered an appropriate supplemental measure of expected operating performance when compared to expected EPS.

The Company believes that FFO and FFO available to Common Shares and Units are helpful to investors as supplemental measures of the operating performance of a real estate company, because they are recognized measures of performance by the real estate industry and by excluding gains or losses from sales and impairment write-downs of depreciable real estate and excluding depreciation related to real estate (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO available to Common Shares and Units can help compare the operating performance of a company's real estate between periods or as compared to different companies.

Normalized Funds From Operations ("Normalized FFO" or "NFFO") – Normalized FFO begins with FFO and excludes:

- the impact of any expenses relating to non-operating real estate asset impairment;
- pursuit cost write-offs;
- gains and losses from early debt extinguishment and preferred share redemptions;
- gains and losses from non-operating assets; and
- other miscellaneous items.

Expected Normalized FFO per share is calculated on a basis consistent with actual Normalized FFO per share and is considered an appropriate supplemental measure of expected operating performance when compared to expected EPS.

The Company believes that Normalized FFO and Normalized FFO available to Common Shares and Units are helpful to investors as supplemental measures of the operating performance of a real estate company because they allow investors to compare the Company's operating performance to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results.

FFO, FFO available to Common Shares and Units, Normalized FFO and Normalized FFO available to Common Shares and Units do not represent net income, net income available to Common Shares or net cash flows from operating activities in accordance with GAAP. Therefore, FFO, FFO available to Common Shares and Units, Normalized FFO and Normalized FFO available to Common Shares and Units should not be exclusively considered as alternatives to net income, net income available to Common Shares or net cash flows from operating activities as determined by GAAP or as a measure of liquidity. The Company's calculation of FFO, FFO available to Common Shares and Units, Normalized FFO and Normalized FFO available to Common Shares and Units may differ from other real estate companies due to, among other items, variations in cost capitalization policies for capital expenditures and, accordingly, may not be comparable to such other real estate companies.

FFO available to Common Shares and Units and Normalized FFO available to Common Shares and Units are calculated on a basis consistent with net income available to Common Shares and reflects adjustments to net income for preferred distributions and premiums on redemption of preferred shares in accordance with GAAP. The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units are collectively referred to as the "Noncontrolling Interests – Operating Partnership". Subject to certain restrictions, the Noncontrolling Interests – Operating Partnership may exchange their OP Units for Common Shares on a one-for-one basis.

Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms – Continued

(Amounts in thousands except per share and per apartment unit data)
(All per share data is diluted)

The following table presents reconciliations of EPS to FFO per share and Normalized FFO per share for Consolidated Statements of Funds From Operations and Normalized Funds From Operations.

	Actual Sept. YTD 2023 Per Share	Actual Sept. YTD 2022 Per Share	Actual Q3 2023 Per Share	Actual Q3 2022 Per Share	Expected Q4 2023 Per Share	Expected 2023 Per Share
EPS – Diluted	$ 1.38	$ 1.63	$ 0.45	$ 0.86	$0.82 to $0.84	$2.20 to $2.22
Depreciation expense	1.68	1.71	0.57	0.55	0.58	2.26
Net (gain) loss on sales	(0.32)	(0.78)	(0.06)	(0.51)	(0.40)	(0.72)
Impairment – operating real estate assets	—	—	—	—	—	—
FFO per share – Diluted	2.74	2.56	0.96	0.90	1.00 to 1.02	3.74 to 3.76
Impairment – non-operating real estate assets	—	—	—	—	—	—
Write-off of pursuit costs	0.01	0.01	—	—	—	0.01
Debt extinguishment and preferred share redemption (gains) losses	—	0.01	—	0.01	—	—
Non-operating asset (gains) losses	(0.01)	—	(0.01)	—	(0.01)	(0.02)
Other miscellaneous items	0.04	—	0.01	0.01	—	0.04
Normalized FFO per share – Diluted	$ 2.78	$ 2.58	$ 0.96	$ 0.92	$0.99 to $1.01	$3.77 to $3.79

Lease-Up NOI – Represents NOI for development properties: (i) in various stages of lease-up; and (ii) where lease-up has been completed but the properties were not stabilized (defined as having achieved 90% occupancy for three consecutive months) for all of the current and comparable periods presented.

Leasing Concessions – Reflects upfront discounts on both new move-in and renewal leases on a straight-line basis.

Net Operating Income ("NOI") – NOI is the Company's primary financial measure for evaluating each of its apartment properties. NOI is defined as rental income less direct property operating expenses (including real estate taxes and insurance). The Company believes that NOI is helpful to investors as a supplemental measure of its operating performance because it is a direct measure of the actual operating results of the Company's apartment properties. NOI does not include an allocation of property management expenses either in the current or comparable periods. Rental income for all leases and operating expense for ground leases (for both same store and non-same store properties) are reflected on a straight-line basis in accordance with GAAP for the current and comparable periods.

The following tables present reconciliations of operating income per the consolidated statements of operations to NOI, along with rental income, operating expenses and NOI per the consolidated statements of operations allocated between same store and non-same store/other results (see Same Store Results):

	Nine Months Ended September 30,		Quarter Ended September 30,	
	2023	2022	2023	2022
Operating income	$ 768,084	$ 873,683	$ 252,035	$ 414,011
Adjustments:				
Property management	90,314	83,035	28,169	25,729
General and administrative	49,135	47,033	14,094	13,372
Depreciation	661,921	667,896	224,736	214,129
Net (gain) loss on sales of real estate properties	(127,034)	(304,346)	(26,912)	(196,551)
Total NOI	$ 1,442,420	$ 1,367,301	$ 492,122	$ 470,690
Rental income:				
Same store	$ 2,069,856	$ 1,949,748	$ 704,090	$ 676,387
Non-same store/other	76,608	85,729	19,977	18,712
Total rental income	2,146,464	2,035,477	724,067	695,099
Operating expenses:				
Same store	664,607	631,281	223,474	216,735
Non-same store/other	39,437	36,895	8,471	7,674
Total operating expenses	704,044	668,176	231,945	224,409
NOI:				
Same store	1,405,249	1,318,467	480,616	459,652
Non-same store/other	37,171	48,834	11,506	11,038
Total NOI	$ 1,442,420	$ 1,367,301	$ 492,122	$ 470,690

Equity Residential

Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms – Continued

(Amounts in thousands except per share and per apartment unit data)
(All per share data is diluted)

New Lease Change – The net effective change in rent (inclusive of Leasing Concessions) for a lease with a new or transferring resident compared to the rent for the prior lease of the identical apartment unit, regardless of lease term.

Non-Residential – Consists of revenues and expenses from retail and public parking garage operations.

Non-Same Store Properties – For annual comparisons, primarily includes all properties acquired during 2022 and 2023, plus any properties in lease-up and not stabilized as of January 1, 2022.

Percentage of Residents Renewing – Leases renewed expressed as a percentage of total renewal offers extended during the reporting period.

Physical Occupancy – The weighted average occupied apartment units for the reporting period divided by the average of total apartment units available for rent for the reporting period.

Pricing Trend – Weighted average of 12-month base rent including amenity amount less Leasing Concessions on 12-month signed leases for the reporting period.

Renewal Rate Achieved – The net effective change in rent (inclusive of Leasing Concessions) for a new lease on an apartment unit where the lease has been renewed as compared to the rent for the prior lease of the identical apartment unit, regardless of lease term.

Residential – Consists of multifamily apartment revenues and expenses.

Same Store Operating Expenses:

On-site Payroll – Includes payroll and related expenses for on-site personnel including property managers, leasing consultants and maintenance staff.

Other On-site Operating Expenses – Includes ground lease costs and administrative costs such as office supplies, telephone and data charges and association and business licensing fees.

Repairs and Maintenance – Includes general maintenance costs, apartment unit turnover costs including interior painting, routine landscaping, security, exterminating, fire protection, snow removal, elevator, roof and parking lot repairs and other miscellaneous building repair and maintenance costs.

Utilities – Represents gross expenses prior to any recoveries under the Resident Utility Billing System (“RUBS”). Recoveries are reflected in rental income.

Same Store Properties – For annual comparisons, primarily includes all properties acquired or completed that are stabilized prior to January 1, 2022, less properties subsequently sold. Properties are included in Same Store when they are stabilized for all of the current and comparable periods presented.

Same Store Residential Revenues – Revenues from our Same Store Properties presented on a GAAP basis which reflects the impact of Leasing Concessions on a straight-line basis.

Same Store Residential Revenues with Leasing Concessions on a cash basis is presented in Same Store Results and is considered by the Company to be a supplemental measure to Same Store Residential Revenues in conformity with GAAP to help investors evaluate the impact of both current and historical Leasing Concessions on GAAP-based Same Store Residential Revenues and to more readily enable comparisons to revenue as reported by other companies. Same Store Residential Revenues with Leasing Concessions on a cash basis reflects the impact of Leasing Concessions used in the period and allows an investor to understand the historical trend in cash Leasing Concessions.

% of Stabilized Budgeted NOI – Represents original budgeted 2023 NOI for stabilized properties and projected annual NOI at stabilization (defined as having achieved 90% occupancy for three consecutive months) for properties that are in lease-up.

Total Budgeted Capital Cost – Estimated remaining cost for projects under development and/or developed plus all capitalized costs incurred to date, including land acquisition costs, construction costs, capitalized real estate taxes and insurance, capitalized interest and loan fees, permits, professional fees, allocated development overhead and other regulatory fees, plus any estimates of costs remaining to be funded for all projects, all in accordance with GAAP. Amounts for partially owned consolidated and unconsolidated properties are presented at 100% of the project.

Equity Residential

Additional Reconciliations and Definitions of Non-GAAP Financial Measures and Other Terms – Continued

(Amounts in thousands except per share and per apartment unit data)
(All per share data is diluted)

Total Market Capitalization – The aggregate of the market value of the Company's outstanding common shares, including restricted shares, the market value of the Company's operating partnership units outstanding, including restricted units (based on the market value of the Company's common shares) and the outstanding principal balance of debt. The Company believes this is a useful measure of a real estate operating company's long-term liquidity and balance sheet strength, because it shows an approximate relationship between a company's total debt and the current total market value of its assets based on the current price at which the Company's common shares trade. However, because this measure of leverage changes with fluctuations in the Company's share price, which occur regularly, this measure may change even when the Company's earnings, interest and debt levels remain stable.

Traffic – Consists of an expression of interest in an apartment by completing an in-person tour, self-guided tour or virtual tour that may result in an application to lease.

Transaction Accretion (Dilution) – Represents the spread between the Acquisition Cap Rate and the Disposition Yield.

Turnover – Total Residential move-outs (including inter-property and intra-property transfers) divided by total Residential apartment units.

Unencumbered NOI % – Represents NOI generated by consolidated real estate assets unencumbered by outstanding secured debt as a percentage of total NOI generated by all of the Company's consolidated real estate assets.

Unlevered Internal Rate of Return ("IRR") – The Unlevered IRR on sold properties is the compound annual rate of return calculated by the Company based on the timing and amount of: (i) the gross purchase price of the property plus any direct acquisition costs incurred by the Company; (ii) total revenues earned during the Company's ownership period; (iii) total direct property operating expenses (including real estate taxes and insurance) incurred during the Company's ownership period; (iv) capital expenditures incurred during the Company's ownership period; and (v) the gross sales price of the property net of selling costs.

The calculation of the Unlevered IRR does not include an adjustment for the Company's property management expense, general and administrative expense or interest expense (including loan assumption costs and other loan-related costs). Therefore, the Unlevered IRR is not a substitute for net income as a measure of our performance. Management believes that the Unlevered IRR achieved during the period a property is owned by the Company is useful because it is one indication of the gross value created by the Company's acquisition, development, renovation, management and ultimate sale of a property, before the impact of Company overhead. The Unlevered IRR achieved on the properties as cited in this release should not be viewed as an indication of the gross value created with respect to other properties owned by the Company, and the Company does not represent that it will achieve similar Unlevered IRRs upon the disposition of other properties. The weighted average Unlevered IRR for sold properties is weighted based on all cash flows over the investment period for each respective property, including net sales proceeds.

Weighted Average Coupons – Contractual interest rate for each debt instrument weighted by principal balances as of September 30, 2023. In case of debt for which fair value hedges are in place, the rate payable under the corresponding derivatives is used in lieu of the contractual interest rate.

Weighted Average Rates – Interest expense for each debt instrument for the nine months ended September 30, 2023 weighted by its average principal balance for the same period. Interest expense includes amortization of premiums, discounts and other comprehensive income on debt and related derivative instruments. In case of debt for which derivatives are in place, the income or expense recognized under the corresponding derivatives is included in the total interest expense for the period.
